PART 01

First contact and questions

Answering fast and clearly is half the sale. Use these messages to welcome people who reach out curious.

001 **Welcome**

Hi **[NAME]**! Thanks for reaching out. This is **[YOUR NAME]** from **[YOUR SHOP]**. Tell me what you're looking for and I'll help you find the perfect piece.

002 **After-hours reply**

Hi **[NAME]**! Got your message. We're available **[DAYS]** from **[HOURS]**. I'll get back to you with all the details as soon as we're back — sound good?

003 What is 3D printing

Great question! 3D printing builds the piece layer by layer from a digital file. That's why we can make unique shapes and customize colors, sizes and names.

004 Material

Our pieces are made from [MATERIAL, e.g. PLA], a sturdy material with a nice finish. It's great for [indoor/decorative] use. If the piece will sit in the sun or heat, I can suggest a different material.

005 Customization

Yes, it can be customized! I can change the color and size and add a name or a phrase. Tell me what you have in mind and I'll send you the options and the price.

006 Available colors

These are the colors I have right now: [COLOR LIST]. If you'd like another color, I can check how long it takes to get the material.

007 Size

This piece measures [DIMENSIONS] (height x width x depth). If you need it bigger or smaller, I can adjust it — just tell me the size you need.

008 Ready to ship

I have [QUANTITY] ready to ship in this color. Other colors or custom versions are made to order within [LEAD TIME] business days.

009 Real photo request

Of course! Here's an unfiltered photo of the actual piece so you can see the finish up close. The fine lines you see are a normal part of 3D printing.

010 Send to catalog

Here's our catalog with photos and prices: [LINK]. If you like something, send me a screenshot and I'll give you the lead time and shipping.

PART 02

Quotes

A well-written quote builds trust. Make clear what's included, the lead time and how long the quote is

valid.

011 Asking for details

To give you an accurate quote, I need a few details: 1) which piece or model; 2) approximate size; 3) color; 4) quantity; 5) when you need it. Could you send me those?

012 Simple quote

Here's your quote, **[NAME]**:
• **[ITEM]** — **[COLOR]** — **[QUANTITY]** pcs
• Price: $ **[PRICE]**
• Production time: **[LEAD TIME]** business days
• Shipping: $ **[SHIPPING]** to **[ZIP CODE]**
Valid for **[X]** days. Want me to reserve it for you?

013 Custom piece quote

I've priced your custom piece with **[DETAILS]**. It comes to $ **[PRICE]**, including adjusting the model and printing. Before printing, I'll send you a preview to approve.

014 Volume pricing

For larger quantities I can offer a better price:
• 10 pcs: $ **[PRICE]** each
• 30 pcs: $ **[PRICE]** each
• 50+ pcs: $ **[PRICE]** each
Lead time depends on the quantity.

015 Party favors quote

For the **[EVENT]** favors — **[QUANTITY]** pieces personalized with **[NAME/THEME]** — the price is $ **[PRICE]** each, individually packaged. To deliver by **[DATE]**, I need your confirmation by **[DATE]**.

016 Project from a photo

Absolutely! I'll model the piece from your photo and show you a preview before printing. Modeling is $ **[PRICE]** and printing is $ **[PRICE]**. Want to go ahead?

017 Customer's own file

Got your file! I checked it and it's **[ready to print / needs a few small fixes]**. Printing comes to $ **[PRICE]**, with a lead time of **[LEAD TIME]** business days.

018 **Not feasible**

I looked at it carefully, but this piece won't turn out well in 3D printing because of [REASON]. Rather than deliver something below your expectations, I'd suggest [ALTERNATIVE]. What do you think?

019 **Quote reminder**

Hi [NAME]! Just a reminder about the quote for the [ITEM]. It's valid until [DATE]. If you have any questions or want to adjust anything, just let me know.

020 **Quote approved**

Great, [NAME]! Quote approved. I'll send you the payment details and, once it's confirmed, your piece goes into the production queue.

PART 03

Negotiation and price objections

Explain the value without underselling yourself. If you give a discount, it should have a reason.

021 **"It's too expensive"**

I understand, [NAME]. The price covers material, machine hours, hand finishing and safe packaging. Every piece is made and checked one by one. If you'd like, I can suggest a smaller version that fits your budget better.

022 **Compared to mass-produced**

Store products are made by the thousands in molds. Here every piece is made to order, in small batches, in the color and size you choose. It's a different kind of product.

023 **Volume discount**

For orders of [QUANTITY] or more I can offer [X] % off, because I can print them in batches. Want me to redo the quote with that quantity?

024 **Cash or bank transfer discount**

If you pay by [Zelle/Venmo/bank transfer] I can take [X] % off, which makes it $ [PRICE]. Want me to send the details?

025 **Cheaper alternative**

One way to save is to make it in [STANDARD COLOR/FINISH] or in a [SMALLER] size. That comes to $ [PRICE] with the same quality.

026 Discount with no reason

This is already my best price for this piece — I price fairly based on my real costs. What I can do is include [FREE GIFT/GIFT WRAP] at no charge.

027 Customer wants to think

Of course, no rush! I'll hold your quote until [DATE]. If any questions come up, just message me.

028 Cheaper competitor

Totally fair! It's worth comparing size, material, finish and lead time. Here I guarantee [YOUR EDGE: hand-checked finish, safe packaging, replacement if defective].

029 Installments

I can split it into [X] payments through the payment link. Want me to create it?

030 Closing

To guarantee delivery by [DATE], I need to lock in your production slot today. Shall I confirm your order?
